# Professional Technique Training for Partial Dentures

**Nobilium & Ticonium companies** are committed to helping our customers maximize their expertise and productivity. We are offering basic framework training for the novice technician as well as an advanced course for the more experienced. Each course is a three day program with individualized instruction that covers everything a partial denture technician needs to know to be successful.

We use our educational laboratory that is equipped with our most up to date casting machines, duplicating equipment, alloy grinders and more. Students will learn the proper techniques for making partials as well as maintaining equipment. Continuing education credits are available.

To enroll in these informative education courses, call us toll-free at **800-833-2343** or complete the coupon form and fax it to: **518-434-1288**.

*Please check the course you would like to attend:*

**Basic Partial Framework Training**

- January 16-18, 2008
- March 12-14, 2008
- May 14-16, 2007
- August 13-15, 2008

**Ann Schmitt, CDT**  
*Manager of Technical  
Services/Instructor*

Ann's career as a dental technician began as soon as she could reach the bench. Growing up in her families' dental laboratory as a child, she cleaned flasks, chopped duplicating material and played with the waxes and plaster. In 1981, she started as an apprentice technician at Schmitt Dental Laboratory in Michigan.

Her dental history spans four generations, starting with her great grandfather George Schmitt, a dentist, her grandfather Reinhold Schmitt, CDT and her father Edward Schmitt, CDT who taught her everything. Ann received her certification in partial dentures in 1991. In 2005, her career took her to Illinois, where she managed the partial department at Ottawa Dental Laboratory.

Ann is now the Manager of Technical Services at CMP Industries LLC, in Albany, New York, where she is very happy to use her lifelong experiences to help other technicians achieve the degree of satisfaction in their career that she has received in hers.
